The 'Quick Search' box also provides convenient predictive text. Once you type in your search term and select your filters, click "Run Search".

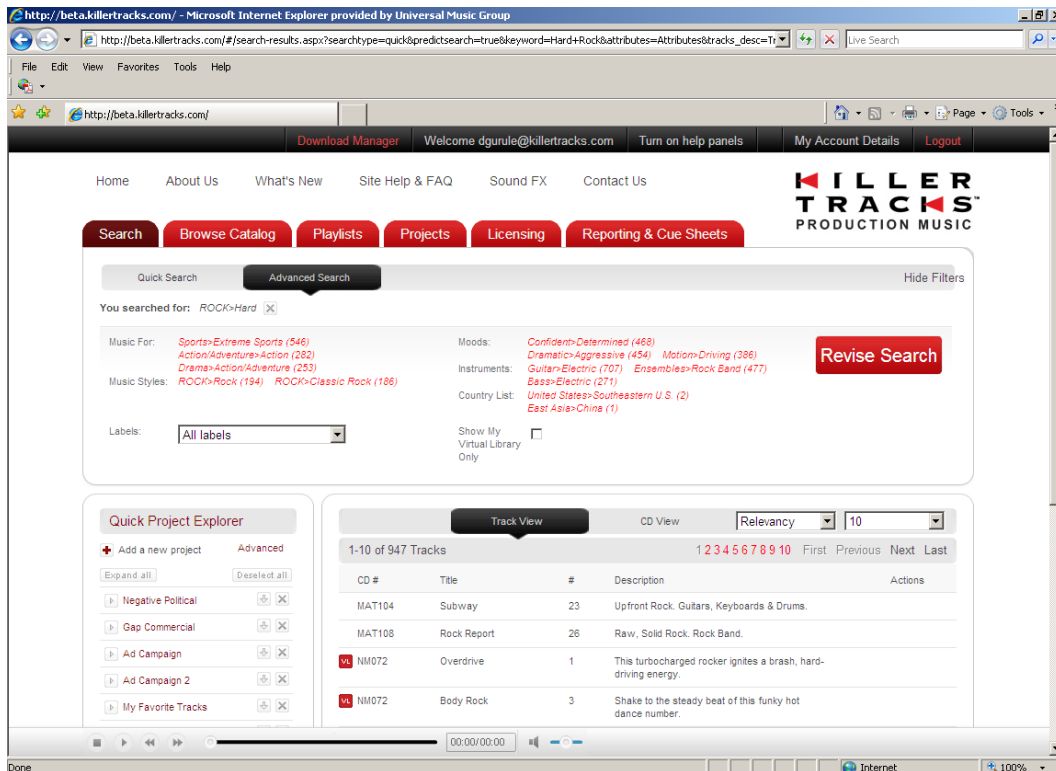

Search results are displayed by order of relevance. You can also sort by Track Title and CD Number and you can modify the number of results displayed per page. - 4 Communities Rise: The intensity of a virtuosic solo fiddle is enhanced by the coming together of a soaring choir, growing strings, with a folkly triangle and penny whistle.
- 5 Wide Open Fields: Gentle solo piano is transcended by thoughtful orchestra, militaristic snare drum, then poignant counterpoint between string parts, growing grand, then concluding softly.
- 6 Civic Pride: A lonesome string note is held over plucked arpeggiating strings, courageous brass, building toward a warm and peaceful ending.
- 7 Triumphant: Somber solo piano leads into lush orchestra with folkly, playful woodwind melodies and

The main content area is titled "Licensing Information & Laserdrop™ License Applications" and contains the following text:

**LICENSING RATES**  
Our rates are not posted online. Please call 800.454.5537 or e-mail your Account Executive at [sales@killertracks.com](mailto:sales@killertracks.com) to discuss our current licensing rates and various agreement options.

**BLANKET LICENSES**  
Blanket licenses are available in single-year, multi-year or production-specific terms. A blanket license permits unlimited use of the recordings licensed in the term, or in the specific production, for synchronization purposes. Killer Tracks offers a variety of plans to select from. Simply contact your Account Executive at 800.454.5537 to learn more.

**PER-USE (LASERDROP™) LICENSING**  
Some clients prefer to license their music on a Laserdrop™ or 'pay-as-you-go' basis. Our General Agreement license fits this need. It allows you to access your library and then report and pay for each use on a per-project basis. The Laserdrop license fee is a one-time charge per use. The term "Laserdrop" is a Killer Tracks trademark that is also commonly known as "neededrop".

If you're a Laserdrop client, you'll need to submit a Laserdrop License Application each time you use a track so that a combination license/invoice can be issued. The licensing of a particular track or selection of tracks is completed upon Killer Tracks' receipt of the signed license/invoice and payment of the appropriate licensing fee.

To submit a Laserdrop License Application, click on [Submit License Applications](#) on the left.

The Licensing section of the website explains our various agreement options and allows registered users who are logged in to access Laserdrop™ License Applications.
